FILE INFORMATION FOR OPTIMAL ENTRAINMENT RESULTS

We strongly recommend not converting your downloaded files to a smaller MP3 format, because the increased MP3 compression will filter out a considerable amount of the entrainment power embedded in the high quality MP3 file.

HEADPHONES

For the fullest entrainment effect, it is recommended to use good quality headphones when listening to *VisionQuest*.

COMPATIBLE PLAYERS

Compatible with all MP3 and WAV players.

IMPORTANT!

Be sure to drink at least one glass of water before your sessions and one glass of water afterward. Brainwave entrainment increases blood flow to the brain, and drinking plenty of water helps your brain rid itself of waste byproducts.

About

Encoded music for journeying through innerspace designed to help you experience:

- Inner vision and insight

- Deep meditation
- Enhanced inner awareness

How to Use

To get the best experience, use good quality headphones to listen to these tracks.

- Headphones are recommended for optimal effect, but not required. Because of the embedded biofield entrainment frequencies, entrainment is still effective even when not using headphones. Headphones, however, deliver the best entrainment due to the unique, harmonically layered dual-pulse binaural signals encoded into the mix.
- As a complement to the Profound Meditation Program, you can listen to this program as often as you like. Let your own experience be the judge of how frequently you choose to listen.
- To enjoy this program as a meditation, sit in a comfortable chair with head and neck support, or on your meditation cushion.
- Always sit upright while listening, as this best facilitates the increased attention, focus and energy will accrue during listening sessions.
- We generally recommend listening with **eyes closed**, as this helps reserve attention and minimize distraction for optimal entrainment.
- Allow yourself to be given over to the audio environment, which will increase the efficacy of your session.
- **IMPORTANT:** After each session, allow 1- 5 minutes to ease back into your day. Be sure to anchor your deepened awareness in your mind by consciously observing and feeling it in your body. **Soak it up and bathe in it.** Then intend to carry this awareness and effortless focus with you wherever you go.

- You may experience a deep emotional release and tears while listening to this program, or sometime afterwards, or both. This is a good sign, as this program elicits the brainwave patterns and states associated not only with deep relaxation but also long-term emotional memory. If you notice emotions coming to the surface, this serves as a wonderful opportunity to release them. In fact, it is the pent up emotions we carry with us subconsciously which compound our experience of stress.
